

**BASIC VENEERING CLASS TOOL LIST**  
**WITH MARC ADAMS**  
**July 28-29, 2012**

The following is a list of the hand tools that you should bring to the weekend veneering class. The class will have a \$20 material fee to cover the veneer used in the class and other consumable supplies. There will be veneer available for purchase at the end of the class. Additional veneer tape will be available to purchase at the school.

1. 3/4" masking tape - 1 roll, the blue tape is nice.
2. Several #2 pencils and erasers.
3. X-Acto knife with many extra #11 blades.
4. A self heal cutting mat (24" x 36" size if possible). X-Acto is probably the best but most expensive. They are usually available at any hobby or art store.
5. Small kitchen sponge, and a large plastic butter tub lid.
6. Straight edge at least 3/4 to 1 inch wide (no wider than 1 1/4" and no longer than 24") metal or plastic are preferred.
7. A 30-60-90 degree drafting triangle and a 45-45-90 degree drafting triangle.
8. 3/4" veneer tape with no holes. Available at the school.

Optional

1. Two--12 x 12 inch mirrors (mirror tiles). These two mirrors will be duck taped together to create a reflective view of the veneer.
2. Extra newspaper (Avoid bringing the slick cover insert ads as these have too much color that can be transmitted to the veneer during pressing.) This paper will be used during glue-ups.

## ALL SATURDAY AND SUNDAY CLASSES START AT 9:00 AM EASTERN TIME

For all classes it is a good idea to bring is a pencil, notebook, a dust mask, ear plugs and without a doubt, safety glasses and a camera, if you would like to take pictures. ● **Classes marked with dot (●) do not have a specific tool list.**  
If your class requires hand tools, the tool list will be with this page. Lunch is included and will be served around noon.

<b>Date</b>	<b>Class</b>	<b>Instructor</b>
April 21-22, 2012	Introduction to Translucent Mineral Inlay	Stephen Hatcher
April 21-22, 2012	Fine Finishing with Hardware Store Materials	Tim Puro
