

**Making a Veneered Keepsake Jewelry Box
with Paul Schürch
April 27 (7:00 pm), 28-29, 2012**

Dear Students,

Greetings to all those I have worked with before and will meet at the shop!

This class should prove to be a very exciting one for all of you that are ready to take the next step of veneering into a furniture project. On the evening before the two-day seminar, I hope to see you for a slide show explaining how we will manage to build a box, veneer it, and be done, in just two days. This will prepare you for this hands-on construction of a 10" x 15" customized jewelry box with a decoratively veneered lid, hopefully finished by the end of the second day. I strive to lay the foundation for you to continue veneering, making similar furniture projects in your own.

If you never veneered before you want to review my DVD and booklet 'Decorative Veneering' prior to class. If you already understand decorative veneering and want to do a small marquetry project, view the DVD/book 'Marquetry' to better prepare yourself. We will be doing a crash course in veneering, but the knowledge you gain prior to class, will allow you to complete a better panel for the jewelry box lid.

The tuition fee will include the basic kit of tools, veneer and supplies that you will need on the first day of class. In addition, you will need to bring or purchase at the school:

Solid hardwood lumber milled S4S, to 3/4" x 4" x 48"

Veneer saw with a sharpening file

Small hand plane

Cabinet scraper

1 1/2" chisel

Ex-acto #11 blade and handle

6" or 8" 90° square

Pencil

3/4" 3M 2090 blue painters tape

Hearing and eye protection

Sandpaper

Safety glasses, dust mask

Plastic drafting triangle

.05mm mechanical pencil

Sketch paper

A centimeter/inch tape measure or a 150mm / 6" metal rule (The metric part is nice to have, but not mandatory)

The box hinges and screws will be available.

Please bring a piece of 3/4" MDF or straight hardwood 3" x 24" to use as a veneer saw cutting edge, or order a V-edge or other tools from: www.schurchwoodwork.com/tools

Please come prepared with sharp tools. This is a fast paced class, where we will all want to hit the ground running.

I look forward in taking your veneering skills into furniture making.

See you soon!

Paul

JEWELRY BOX KIT

This tool and supply kit is a selected set of tools, wood veneer, and supplies to get you started in the art of decorative veneering and jewelry box construction with Paul Schurch. This kit compliments other tools that are available from Woodcraft Stores.

Item List & Description

1. Instruction sheet
2. Full size blueprints
3. 1x roll 3/4" gum tape
4. Scalpel handle with protector
5. 5x scalpel blades
6. V-tong (veneer tweezers)
7. 2x bushing canvas 9" x 14"
8. 1x MDF core, 1/4" x 8-1/2" x 13-1/2"
9. 1x Box floor plywood panel
10. 2x Paper chipboard
11. Clear polyethylene plastic for glue-up
12. Screws and lid chain
13. 6x sheets veneer, mahogany, cherry and maple.

ALL SATURDAY AND SUNDAY CLASSES START AT 9:00 AM EASTERN TIME

For all classes it is a good idea to bring is a pencil, notebook, a dust mask, ear plugs and without a doubt, safety glasses and a camera, if you would like to take pictures. ● **Classes marked with dot (●) do not have a specific tool list.**
If your class requires hand tools, the tool list will be with this page. Lunch is included and will be served around noon.

Date	Class	Instructor
April 21-22, 2012	Introduction to Translucent Mineral Inlay	Stephen Hatcher
