

GETTING THE MOST FROM YOUR SCROLL SAW WITH MARC BERNER August 10-11, 2019

Suggested Tool/Supply list:

Bring your saw if possible. It always great to learn on your own saw.

Foot peddle.

Lighted magnifying glass (one with a 40 watt bulb from someplace like Wal-Mart for around \$20).

Pictures: Lots of them. Some of the family, yourself, in-laws, out-laws, any one.

Glue stick tubes. Several will be needed to transfer patterns.

Spray adhesive. A small can will do.
