

Turning an Inlaid Box with Chatterwork
With Kip Christensen
August 17, 2019 (Saturday)

Tools and Accessories:

Spindle Roughing Gouge, 3/4 or larger

Spindle/Detail Gouge, 3/8 or 1/2 **

Skew (not oval type), 1/2 - 1

Parting Tool, 3/32 - 3/16 **

Box Scraper **

Chatter Tool **

Scroll Chuck and Key (optional),

Note: MASW has OneWay lathes. Headstock spindle thread is M33 (not standard 1-1/4"x8tpi). You will need an adaptor if you bring a chuck that does not have M33 threads.

Face Shield with a Z87+ rating. Some are available for purchase at the school.

Power sanding pads and abrasives; bring power sanding items if you have them.

**Kip has these tools available for purchase. Contact him if you are interested in purchasing them.
