

The Perfect Circle: Build Your Own Solid Shell Snare Drum with Jefferson Shallenberger June 10-14, 2019

The school has a variety of lathe tools, sandpaper, orbital sanders and glue for the students to use. If you have some turning tools and a face shield, rated Z87+ that you want to use for the turning portion of the class, please bring them, but it is not mandatory. Do not go out and buy any specific tools for this class. The assistants will be helping during the short portion of the turning session of the class, since Jefferson is not a turner.

Students are to bring a tape measure, pencil and a smile...

Please note there is a \$200.00 materials fee payable to Jefferson (cash or check) when you are here for the class.
