Hot Shop Valpo | 
Glass Art Studio

GLASS BLOWING 101 WITH DAVE AND BRYAN LEE
April 25-26, 2020
October 10-11, 2020

Greetings,

Thanks for joining us adrenaline seekers. During this 2 day workshop you will be introduced to the exciting world of hot glass and offhand glassblowing. In this intensive 2 day class, students will get a look back at the history of the studio glass movement, proper use of tools, and of course hot shop safety. The students, working in teams of two, will begin working with the molten glass. Working with the solid form you will make paperweights and then progress into blowing glasses, small vases, and bowls.

Please do not hesitate to email or telephone me with ANY questions that you may have. I am looking forward to meeting you all!

Additional items that you must bring:

- A great attitude and spirit of adventure
- Cotton long pants and cotton tee shirt for each day
- Closed toed shoes
- Water bottle

Warmest regards (no pun intended),

Dave and Bryan
