## **BASIC CABINETMAKING WITH MICHAEL HARRIGAN**

**June 22 – 26, 2020**

### **CLASS OUTLINE**

<b><u>Day 1:</u></b>	Morning	Introduction, orientation, shop safety and policies.
	Afternoon	Demonstrations: Laying out cabinet frames and discuss the cabinet parts list. Joinery for making the face frame. Measure for the other cabinet parts. Begin cutting the sheet stock. . .Picture day.
<b><u>Day 2:</u></b>	Morning	Demonstrations: Cabinet joinery grooving, rabbeting, and dadoing. Prepare cabinet rail stock and cut to size.
	Afternoon	Cabinet assembly. Selecting door style and figuring door and drawer parts cut list. Discussion of hardware for door and drawer. Rough cut door and drawer supplies. Dinner/ slideshow 6:00PM.
<b><u>Day 3:</u></b>	Morning	Demonstration on raised panel, cope & stick door construction. Look at different door profiles. Demonstrate making routed half blind dovetails. How to sand. How to clamp.
	Afternoon	Hands-on: Getting the door panel ready. Assembling door and drawer box. Demonstrate making top and base moldings.
<b><u>Day 4:</u></b>	Morning	Demonstrations: Mitering and attaching the base molding. Biscuit-joining and attaching the trim to top. Making and assembling drawer guides and making necessary adjustments.
	Afternoon	Demonstrations: Hinging, shelving, alignment, and more adjustments. Address other hardware concerns. Open shop to work on your cabinet.
<b><u>Day 5:</u></b>	Morning	Questions and Answers. Address any detailing, final sanding needs or finish preparations. Discuss and fix minor flaws (“design opportunities”). Discuss optional designs.
	Afternoon	Class/Teacher evaluation & critique. This last hour of class is a wonderful experience to share together. Final farewell at 2:30PM. All class participants will help with shop clean-up.

## BASIC CABINETMAKING TOOL LIST

The following list of hand tools will be useful for the Basic Cabinetmaking class. If there is something else you would like to bring, please bring it along. This class has a material fee for the cabinet that you will be working on. We will be using red oak for the project. Students will use the wood provided by the school for this class.

You will need to provide your own handles, please bring two. If you have something you like or want to use, bring it with you. There are a few places close to the school where you can purchase the hardware any time during the week, or after you get home.

1. Pencil, paper & erasers, a note pad or 1/4" grid paper.
2. Tape measure and a 6" square or a 12" adjustable square.
3. 6" rule for tool setup.
4. A few bench chisels 1/4", 1/2" or 3/4" are the most common.
5. Dead blow hammer and a regular claw hammer & nail set punches.
6. Sanding block.
7. Cabinet scraper (flat metal rectangular in shape) and a glue scraper. OPTIONAL
8. Low angle block plane or bench plane if you have one. OPTIONAL
9. A Kreg jig or dowel jig, if you own one. Do not buy one just for this class.
10. Cordless drill & miscellaneous drill bits. Do not buy one just for this class.
11. Screwdriver combination set, #2 square and #2 Philips.
12. Safety equipment: work apron, dust mask, ear plugs, and safety glasses.
13. Bring a camera for all those questions that can only be answered by photographs.

For any technical questions about this class, please contact Michael Harrigan directly at:
